

Course:
 Term:
 Instructor:
 Head TA:

This sheet outlines the default course policies for problem sets, quizzes, and tests. These may be overridden by instructions to the contrary in particular instances. However, in the absence of other information, you are expected to follow these policies. If you have any questions, ASK! Ignorance and confusion are not excuses.

PS | Quiz | Test

While working, you may consult:

	PS	Quiz	Test
Required texts			
Recommended texts			
Textbooks from prerequisite classes (i.e. Apostol for a DiffEq class)			
Reference books (CRC, Merck Index, etc.)			
Any other texts			

Comments:

You may use solution manuals for:

	PS	Quiz	Test
Required texts			
Recommended texts			
Texts from prerequisite classes			
Any other texts			

Comments:

	PS	Quiz	Test
You may use the Internet.			

Comments:

As for notes, you may use:

Your class notes (taken in lecture)			
Hand copies of the class notes of others			
The class notes of others (original or Xeroxed)			
Anything written in your own hand			
Class handouts			
TA/section handouts			
Homework/exams of past years			
Homework/exams of this year			
Solutions to homework/exams of past years			

Comments:

For computational aides, you may use:

Four function/scientific calculators			
Graphing calculators			
Symbolic manipulators			
Mathematical reference tables (integrals, Laplace transforms, etc.)			

Comments:

The following types of collaboration are allowed:

Basic discussion of the problems			
Look at communal materials while writing up solutions			
Look at other's non-communal work (i.e. writeups)			
Turn in a set with more than one name on it
